## How to do Ignite Talks?

### Ignite Talk: best practice of a new format

by Dr. Ann KIEFER

Research Scientist  
LUCET, University of Luxembourg

Recently, scientific conferences have offered the opportunity to present your work as an Ignite Talk.

But:

- What is this format?
- When should you choose this format?
- What are the key features of an Ignite Talk?
- What steps should you take to prepare an Ignite Talk?
- What is important when presenting?

Ann Kiefer, research scientist at LUCET and an expert in science communication, will provide a valuable, hands-on introduction to the basics of an Ignite Talk.

After this workshop, you'll wow your audience at the next conference!

In case of shortages, LuxERA members will be given priority.

Registration until 17 April

In case of questions, please contact [luxeraconf@uni.lu](mailto:luxeraconf@uni.lu).
